Journal of Engineering Mathematics **28**: 503-505, 1994.

Contents of Volume 28 (1994)

Vol. 28 No. 1 February 1994

Special Issue on
Transitional/Turbulent Spots

Guest Editor: F.T. Smith

Editorial v

Introductory remarks vii

J.P. Clark, T.V. Jones and J.E. LaGraff: On the propagation of naturally-occurring turbulent spots 1

D.S. Henningson, A.V. Johansson and P.H. Alfredsson: Turbulent spots in channel flows 21

A. Seifert, M. Zilberman and I. Wygnanski: On the simultaneous measurements of two velocity components in the turbulent spot 43

F.N. Shaikh and M. Gaster: The non-linear evolution of modulated waves in a boundary layer 55

F.T. Smith, B.T. Dodia and R.G.A. Bowles: On global and internal dynamics of spots: a theoretical approach 73

Euromech meetings in 1994 93

The 'KLUWER' LaTeX Style File: Instructions to authors 97

Vol. 28 No. 2 March 1994

A. Azarkhin: Steady-state temperature in a roll subject to surface heating and convection cooling 105

H.A.Z. Hassan and F.E.K. Rofaeel: Reissner–Sagoci problem for a non-homogeneous half-space with surface constraint 117

M. Vynnycky: On the uniform vorticity in a high Reynolds number flow 129

M.A. Chaudhary and J.H. Merkin: Free-convection stagnation-point boundary layers driven by catalytic surface reactions: I. The steady states 145

T. Vinje: On small-time expansion of nonlinear free surface problems 173

Vol. 28 No. 3 May 1994

J.W. Choi, S.M. Sun and M.C. Shen: Steady capillary-gravity waves on the interface of a two-layer fluid over an obstruction-forced modified K-dV equation 193

P. Wang and P.G. Daniels: Numerical solutions for the flow near the end of a shallow laterally heated cavity 211

S.J.D. D'Alessio and S.C.R. Dennis: A method of domain decomposition for calculating the steady flow past a cylinder 227

V. Theofilis: The discrete temporal eigenvalue spectrum of the generalised Hiemenz flow as solution of the Orr–Sommerfeld equation 241

Vol. 28 No. 4 July 1994

R.Kh. Zeytounian: A quasi-one-dimensional asymptotic theory for non-linear water waves 261

J.S. Yu and W.S. Chang: Taylor limit of equilibration and the multimode diffusion approximation 297

S. Olsson: Point force excitation of a thick-walled elastic infinite pipe with an embedded inhomogeneity 311

S.H. Smith: The decay of slow viscous flow 327

Erratum 343

Vol. 28 No. 5 September 1994

T. Allen and N. Riley: The three-dimensional boundary layer on a yawed body of revolution 345

K.B. Ranger and M.E. O'Neill: The torque on an axisymmetric body in asymetric rotational flow 365

T.R. Marchant: Microwave heating of materials with impurities 379

A.C. Pipkin: Catenary deformations of inextensible networks 401

R. Schmidt and L. Librescu: Further results concerning the refined theory of anisotropic laminated composite plates 407

Vol. 28 No. 6 November 1994

S.K. Wilson: The onset of steady Marangoni convection in a spherical geometry 427

G.X. Wu: Wave radiation by a submerged source undergoing large amplitude periodic motion 447

S.M. Cox: Thermosolutal convection between poorly conducting plates 463

S.D. Gulwadi and A.F. Elkouh: Effects of transpiration on free convection in an annulus between concentric porous spheres 483
